

# AveoFlash™ PosiStrobeXP White

## **PART NUMBER: AVE-POSW-101**

**PosiStrobeXP™**, a higher performance mini-position / strobe, the all-new and super bright PosiStrobeXP™. Integrating the most technologically-advanced and brightest LEDs available in the world to the amazing and all-new exclusive AveoOptimizer™ circuitry. Another unique and exclusive feature is the Aveo PowerOptimizer technology designed into the circuit board, it means less power consumption from even brighter lights. The PosiStrobe™ is universal voltage input of 14-28 volts.

PosiStrobe is for Part 103 craft, trikes and ultralights. PosiStrobeXP is for light sport and experimental class.

At only 1.76 ounces, there is not a better solution to tail position/strobe needs in the world.
